

BRICK COLLECTION

DANISH BRICKS

LOHAS
Australia

We are passionate about quality. With this Danish collection, we want to invite you inside our world, a world of tiles in a multitude of colors, surfaces and formats. Bricks to build houses, homes and dreams of.

Our brick is a true natural product - clay shaped with water, dried and fired in kilns at high temperatures. This means that all our products are unique and have a natural variation from burn to burn. It has no effect on the quality of the brick, but is what helps to make your brick something very special. The brick collection is sorted by color, so you can easily find the look you want and represent both bricks from our Danish brickworks, but also from our sister works in Belgium and the Netherlands. The collection is a selection of both soft-ironed and hand-ironed bricks as well as unique long formats.
