

MARSELLA HERITAGE

Specification

- Tile weight: 3.5 kg
- Tiles/sqm (coverage): 11.5
- Batten measures: 38.5 cm
- Tiles/ pack: 5
- Dimension: 459 x 263 mm

Flexural strength

Impermeability

Frost resistance

Geometric characteristics

The Marsella Heritage is a ceramic roof tile that combines traditional aesthetics and design, perfect for heritage/restoration projects in the Australian market. The Marsella Heritage transforms existing roofs into a roof of a different style and period. Its strength comes from being pressurised into plaster molds and baked at high temperatures in individual casings, resulting in a perfect, uniform and quality finish.
